

Emmanuel A. Priestley

Design Engineer

Lagos, Nigeria · Open to remote

hello@emmah.xyz · emmah.xyz · linkedin.com/in/emmahpriestley · x.com/Hey_emmah

Design engineer with a product design background across fintech and insurance. I design interfaces and build the production version in React and Next.js, working end to end from research to shipped UI. Most recently a Design Engineer at Tempo (YC S23). On the side I build and ship my own tools, including Veer and Mytherapist.tools.

SKILLS

Design Product Design · Design Systems · Interaction Design · Prototyping · User Research · Figma · Framer

Build React · Next.js · TypeScript · Tailwind CSS · Framer Motion · Node.js

EXPERIENCE

Tempo (YC S23) Design Engineer Jun 2025 – Jul 2026

Toronto, ON (Remote)

- Designed and helped build an AI-powered visual IDE for developers and designers, working end to end from research and prototyping to shipped UI.
- Turned complex product ideas into clear, usable interfaces alongside founders and engineers.
- Ran user research and usability testing to guide design decisions.
- Supported 4 to 5 Agent+ customers with tailored design work.

Digit Insurance Product Designer Feb 2022 – May 2025

Bengaluru, India (Remote)

- Owned end-to-end design for a digital insurance platform at one of India's largest digital-first insurers.
- Ran research, shipped UI, and worked closely with product, engineering, and marketing.
- Used data and user feedback to improve the product's design and usability.

Carbon (formerly Vella Finance) Product Designer Apr 2021 – Dec 2023

- Built and maintained the product's visual language and design system at a pan-African fintech.
- Worked closely with engineering to ship designs to a high standard.
- Ran research and created wireframes, prototypes, and user flows to guide the product.

Earlier experience 2019 – 2022

- Freelance UI/UX Designer (2019 to 2022): research, wireframing, prototyping, and usability testing for web and mobile clients.
- LAHPay Africa and Hespato (2021 to 2022): product and UI design for early-stage teams.

SELECTED PROJECTS

Veer useveer.xyz

A browser-based studio for animating logos and icons. Twelve animation styles, eight export formats (GIF, MP4, WebM, Lottie, and more), and drop-in code for React, Vue, Svelte, Tailwind, and React Native. 1,700+ icons built in, no signup. Featured on Product Hunt. Built with TypeScript, Canvas, and Web Workers.

Mytherapist.tools mytherapist.tools

An independent, hand-tested directory of 300+ therapy software tools across 11 categories, with side-by-side comparison and a finder quiz. Built with Next.js.

EDUCATION

Kwara State Polytechnic National Diploma, Computer Science Sep 2019 – Oct 2021
